

Now more than ever, SBN is **CONNECTING** its 350+ members to help them develop relationships that build and expand their businesses:

- Our event calendar offers a variety of **networking and educational programs** designed to put our members in the room with like-minded business-owners who want to develop partnerships, trade services, or simply share stories and best practices.
- Our ever-growing **Sustainable Business Directory** has quickly become the go-to resource for finding sustainable businesses in the Philadelphia area, used to facilitate B2B interaction as well as to connect members to consumers.

SBN helps members **PROMOTE** their latest news and events to a large and influential local audience:

- Members are invited to submit content for our **Weekly Round-up**, sent to 3,500+ subscribers every week, as well as to share stories in the **SBN Members-Only Newsletter**.
- Our active and engaging **social media outlets**, like our Facebook page, shine the spotlight on member businesses that are working toward a triple bottom line of people, planet, and profit.

We've gained substantial momentum in the public policy arena, helping to **ADVANCE** businesses in the Philadelphia area:

- SBN pushed to expand the **Sustainable Business Tax Credit**, which provides tax incentives for businesses to become certified B Corps or adopt sustainable practices, and to expand the existing incentives provided to startups through the city's Jump Start Philadelphia program.
- Our members-only **Entrepreneurs' Roundtables** provide exclusive access to the region's top legislators and leaders in sustainable business policy.
- The **Green Stormwater Infrastructure (GSI) Partners**, SBN's unique and signature initiative working to advance the local GSI industry, advocate for the greenest approaches to be facilitated and incentivized as much as possible, and for public and private investment in GSI to remain as local as possible.

We're proud of our accomplishments to date, but there is still so much to do!

We invite you to be part of our community – and the movement to build a supportive eco-system in our region.
