

SBN's Revised Membership Structure FAQ

(updated: November 4, 2022)

Why is SBN restructuring its membership rates?

- To further our mission of building a just, green, and thriving local economy, we strongly believe that our new membership rate structure will create room for more businesses, organizations, and individuals across the Greater Philadelphia region to join our community and grow our collective impact.

What is the new rate structure?

- Our new membership structure includes an annual base rate of \$275 for most small businesses and mission-aligned non-businesses (non-profit organizations and other entities), \$350 annually for GSI businesses, and \$100 annually for start-ups or new businesses. We're also offering a pathway for individuals to receive select member benefits through our individual donation options.

When is the new member rate effective?

- Our new membership structure is effective November 1, 2022.

What will happen to my membership when it's up for renewal?

- If you're a current member and up for renewal, you can simply renew at the rate that works best for your business.

I paid significantly more for membership in 2022. Is there a way to honor the higher amount paid?

- Yes!
 - For current members who paid membership between \$500-\$1,000, we are offering a free 6-month extension of your membership.
 - For members who paid over \$1,000, we are offering one additional year of membership at no additional cost.
- If you paid in either of these groups and are interested in having your dues count towards a sponsorship, please reach out to devi@sbnphiladelphia.org.
